## Question 3

10 out of 10 points

What are the requirements for a policy to become enforceable?

Selected

Answer:

Organization must be able to demonstrate that the relevant policy had been made available for review (distribution), disseminated the document in an intelligible form (reading/review), demonstrate that employees understand the requirements and content of the policy (comprehension/understanding), employee agreeing to comply with policy through affirmation (compliance/agreement), and policy must be uniformly enforced (uniform enforcement).

Correct 

Answer: For a policy to become enforceable, it must be:  
Dissemination (distribution) - The organization must be able to demonstrate that the relevant policy has been made readily available for review by the employee.

Review (reading) - The organization must be able to demonstrate that it disseminated the document in an intelligible form, including versions for illiterate, non-English reading, and reading-impaired employees.

Comprehension (understanding) - The organization must be able to demonstrate that the employee understood the requirements and content of the policy.

Compliance (agreement) - The organization must be able to demonstrate that the employee agrees to comply with the policy, through act or affirmation.

Uniform enforcement - The organization must be able to demonstrate that the policy has been uniformly enforced, regardless of employee status or assignment.

**Question 40**

3 out of 3 points

Laws, policies, and their associated penalties only provide deterrence if three conditions are present. List and describe them.

Selected Answer: 1) Fear of penalty = Potential offenders must fear the penalty. Threats of informal reprimand or verbal warnings may not have the same impact as the threat of imprisonment/forfeiture of pay.  
2) Probability of being apprehended/caught = Must believe there is a possibility of being caught. Penalties will not deter illegal or unethical behavior unless there is reasonable fear of being caught.  
3) Probability of being applied/administered = Must believe that the penalty will be administered.

Correct Answer: ☒ Fear of penalty: Potential offenders must fear the penalty.

Probability of being apprehended: Potential offenders must believe there is a strong possibility of being caught.

Probability of penalty being applied: Potential offenders must believe that the penalty will be administered.
